Imagine yourself in a Kafko pool.

Take a Vacation in Your Own Backyard

Since 1971, beautiful award winning pools from Kafko™ Pool Products have been created for homes just like yours.

Available in an extensive variety of sizes and shapes with a number of exciting options that will transform your backyard into an outdoor entertainment center. With the help of your professional pool dealer you will be able to customize your backyard to suit your individual tastes.

More Fun. Less Hassle.

Building a Pool has Never Been Easier!

Your dealer can help you make the right decisions about your pool. He can offer advice on everything from custom designs to heaters, cleaners and cosmetic enhancements.

A Kafko Pro Builder is not only a reputable dealer, but there are other benefits associated with being a Pro Builder, including:

- availability of exclusive products
- exclusive opportunity for extended warranties
- direct access to Kafko Pools product experts
- dealer training / educational programs.

Building a pool is a big decision and investment. A Kafko Pro Builder will guide you through your options from pool shape to decking.

You will come to depend on your dealer's knowledge and will rely on them for as long as you own your pool.

Benefits of a Kafko Polymer Pool

Kafko Polymer Wall Pools feature...

- 100% Corrosion Free, Sturdy Bracing System with Drive Stake Assembly
- Lifetime Limited Transferable Warranty
- Chlorine Generator (Salt System) Friendly
- Rigid Polymer Panels
 - minimize thermal expansion
 - reduce bowing and deflection
 - are easier to build and maintain true walls

Kafko's Polymer straight panel is made from high impact, corrosion free polystyrene resin. The top, bottom and side rails of the panel are 4" wide, and each panel is rigidified with vertical and horizontal ribs. The center vertical rib on the 6' panel allows the option for additional bracing every three feet. Kafko Polymer Pools combine the rugged engineering of a molded box-flange panel with the benefits of completely corrosion free structural polymer, which means you can install a Kafko Pool where soil conditions prevent the use of conventional steel.

You Deserve the Best

Featuring our 100% corrosion free rigid Polymer Panels!

Panel Alignment Tabs

Top and bottom panel alignment tabs help align the wall panels correctly, which helps maintain a level wall during construction.

Non-skid aluminum coping provides a smooth attractive perimeter around the pool.

Steps are also available in a variety of shapes and sizes, to enhance your poolscape.

Safety Rope and Floats

Reinforced Concrete Decking

Precision-crafted liners resist chemicals and bacteria, plus they are easy to clean and maintain.

The pool is built with a structural wall base and sturdy brace system which are 100% corrosion free.

Things to Consider When Planning Your Pool

Decide How You Will Use Your Pool

Will it be for recreation, exercise, entertaining or some combination of all of these? If you have a general idea of your intended use of the pool, it can help you work through the design process.

Keep Maintenance in Mind

Different types of pools require different levels of maintenance. Some, like vinyl liner pools, are relatively simple to maintain. It can take just a few minutes a week to check water and chemical levels.

Know Your Backyard

If you live on the side of a cliff with a steep grade and little or no access for construction vehicles, then you may run into some problems! If you have a tiny backyard but want an Olympic-sized pool, it may not be possible. But for the most

part, pool builders are very talented and creative when it comes to designing pools to fit in tight or awkward spaces.

Discuss Dollars and Sense

Swimming pools can be expensive up front, but the investment is worth it in the end and the enhanced backyard environment can add to the value of your home. Remember that you can often obtain financing and stretch your payments out over a long term – often a monthly pool payment can be lower than a monthly car payment! Talk with your builder about what financing options are available. Also, maybe you don't have the funds to do a huge water feature or lighting system right now, but if you think you might want it in the future, tell your builder. It's much easier to plan for future plumbing and electrical needs up front and work them into the design than to try and go backward later on.

Building permits are easier with Latham Pool Products.

ONLY WE INCLUDE THE ICC CERTIFICATION

We are the only packaged pool manufacturer to receive ICC-ES Certification of its products. What is ICC-ES? International Code Council Evaluation Service (ICC-ES) ensures that building products meet code requirements.

Building inspectors and engineers look to the ICC-ES evaluation reports for evidence that the products and systems are code-compliant — and can receive a standardized branded pool blueprint coded with ICC-ES report number, stamped and signed by a licensed engineer. Inspectors' #1 choice for approving building codes are ICC-ES certified products*.

*Final permit approval is up to the discretion of each individual municipality's code official.

Imagine the Perfect Shape for Your Backyard

You can choose from a variety of pre-designed pools or, with the help of your dealer, create your own unique design. Kafko's experienced dealers can help you design the pool of your dreams.

Whether you envision a small adjustment to one of our standard designs, or a completely original one, we will be there every step of the way to help you turn your yard into your own private resort.

Latham offers an extensive array of designer patterns. Your individuality is important to us. We are proud to offer you choices that will allow you to customize your poolscape to match your style and taste.

Over 60 Years of Experience in Producing Top Quality Liners

Latham was the first to introduce printed vinyl liners and was the first to introduce 3-D designer pool liners. For over 60 years we have revolutionized the liner industry and continue to be the design leader today. Our vinyl pool liners are easy to clean, soft to the touch, and look fantastic!

Made from the best vinyl material available, our liners are algae and bacteria treated and UV resistant for a longer life.

Quality, Fit, and Protection

Latham liners are designed and manufactured using the most advanced technology in the industry. Our skilled and knowledgeable designers and machine operators take pride in every liner they make. As a result, you get the highest quality, best fitting liner money can buy. Our quality control is so tight we back every liner with one of the best warranties in the industry.

It's why "More dealers specify our liners than any other manufacturer!"

Featuring

The strongest seams you'll NEVER see!

The manufacturing of our premium vinyl liners are computer controlled under strict Quality Control Procedures in our own facilities, ensuring an exact fitting Kafko True-Fit vinyl liner. New or replacement liners are always available to let you restyle your backyard!

TRUE·FIT Computer Controlled Vinyl Cutting

Kafko strives to stay on top of leading technologies in the swimming pool industry. With our computer aided automatic cutting machines, we have once again broken new ground. State-of-the-art, computer driven technology, in conjunction with an experienced, skilled designing staff, ensures you, the Kafko consumer, a True-Fit liner. Kafko liners also:

- are produced with 100% virgin vinyl
- are infused with algae inhibitors, which aid normal sanitizers to protect Kafko liners for a long life
- are manufactured with bleach resistant inks and UV inhibitors to protect against fading and sun damage
- have Cold Crack Temperature Protection to -40°F.

Featuring

Liner Technology

Standard on every Kafko Liner.

The strongest seams you'll never see! Over 500,000 installs!

Standard pool liners present visible lines on the pool floor at the seams which ultimately detract from the beauty of the pool. Our innovative Ultra-Seam® technology elevates our liners to an entirely new category.

This exclusive process makes floor seams stronger and virtually invisible, so there's nothing that gets in the way of the picture perfect beauty of your pool! Now standard on every Kafko Liner.

For more information, ask your dealer about Ultra-Seam!

*The automatic choice for
 safety, savings, and convenience!*

Custom designed to fit your pool.

A backyard swimming pool is the ultimate source of family fun! But when it comes to children and pets, it is also the source of safety concerns. No parent can be watching over the pool every minute. No fence or alarm can prevent a child from getting access to an unsupervised pool. A Coverstar or Pool Cover Specialists automatic safety pool cover can!

Strong protection with your automatic safety cover.

Your Coverstar or Pool Cover Specialists automatic safety cover will create a barrier over your pool that no child or pet can penetrate. With the optional Touch Pad Control, use the key pad to program alerts sent via text or email with your home WiFi network. Be informed on who activated the cover, and when the cover was activated – both opening or closing...plus many other programmable options are available.

The perfect fit!

Custom-built to fit your pool perfectly and manufactured from our best-in-class materials, this is the best protection available for your family and your pool investment!

Save on heat, water, electricity, and chemicals.

A Coverstar or Pool Cover Specialists automatic safety cover acts as a passive solar heater, increasing the temperature of your water by eight to ten degrees. It also reduces evaporation of water as well as consumption of chemicals.

Less time cleaning...more time enjoying!

A Coverstar or Pool Cover Specialists cover keeps dirt and debris out of your pool. The time spent cleaning out dirt and leaves and putting in new chemicals is almost eliminated!

Latham Pools Safety Covers

The strongest mesh and solid safety covers.

A Latham mesh or solid safety cover is the strongest way to prevent children and pets from getting into your pool when you can't be there. Custom-built to fit your pool perfectly and manufactured from best-in-class materials, a Latham safety cover is the best protection available for your family and your pool investment!

We make it strong to keep your family safe!

The stronger the cover, the safer the cover. Latham applies exclusive, patented design and manufacturing innovations to give our mesh and solid safety covers unmatched strength and durability. And because we build them better, we back them better, with our exclusive transferable warranty!

9000MX™ Self-Draining Mesh – 25 Year Warranty*

The 9000MX is engineered for a new level of protection. Built with reinforced mesh, box stitched thread at critical webbing joints and equipped with heavy-duty suspension, this cover is designed to exceed expectations and is appropriate for demanding applications.

Shown with our Exclusive 9000MX™ Safety Cover

7000MS™ Self-Draining Mesh – 20 Year Warranty*

A light-weight, ultra-fine weave mesh blocks 99% of sunlight and filters fine dirt particles down to 40 microns. Rain and melting snow simple drain through the mesh. Excellent all-climate performance in a low maintenance, easy care cover.

5000M™ Self-Draining Mesh – 15 Year Warranty

This durable micro weave fabric has the highest abrasion resistance and tear strength in its class. It filters debris and dirt while allowing water to freely drain through the mesh. A good choice for a combination of protection and value.

1000V™ Solid Vinyl – 15 Year Warranty

Our solid polyester vinyl cover is a complete barrier to sunlight, dirt, debris, and water. Heavy-duty construction provides protection from the elements and prevents algae growth, which helps for faster spring pool openings.

500P™ Lite Duty Solid Vinyl – 12 Year Warranty

Our lite weight 7 oz. solid polyester vinyl cover will provide a 100% barrier from the sun. The light weight material is easy to handle, and is UV and mildew resistant. Available in blue and green.

7000MS Mesh U.S. Patent No. 6,886,187 – 99% Shade

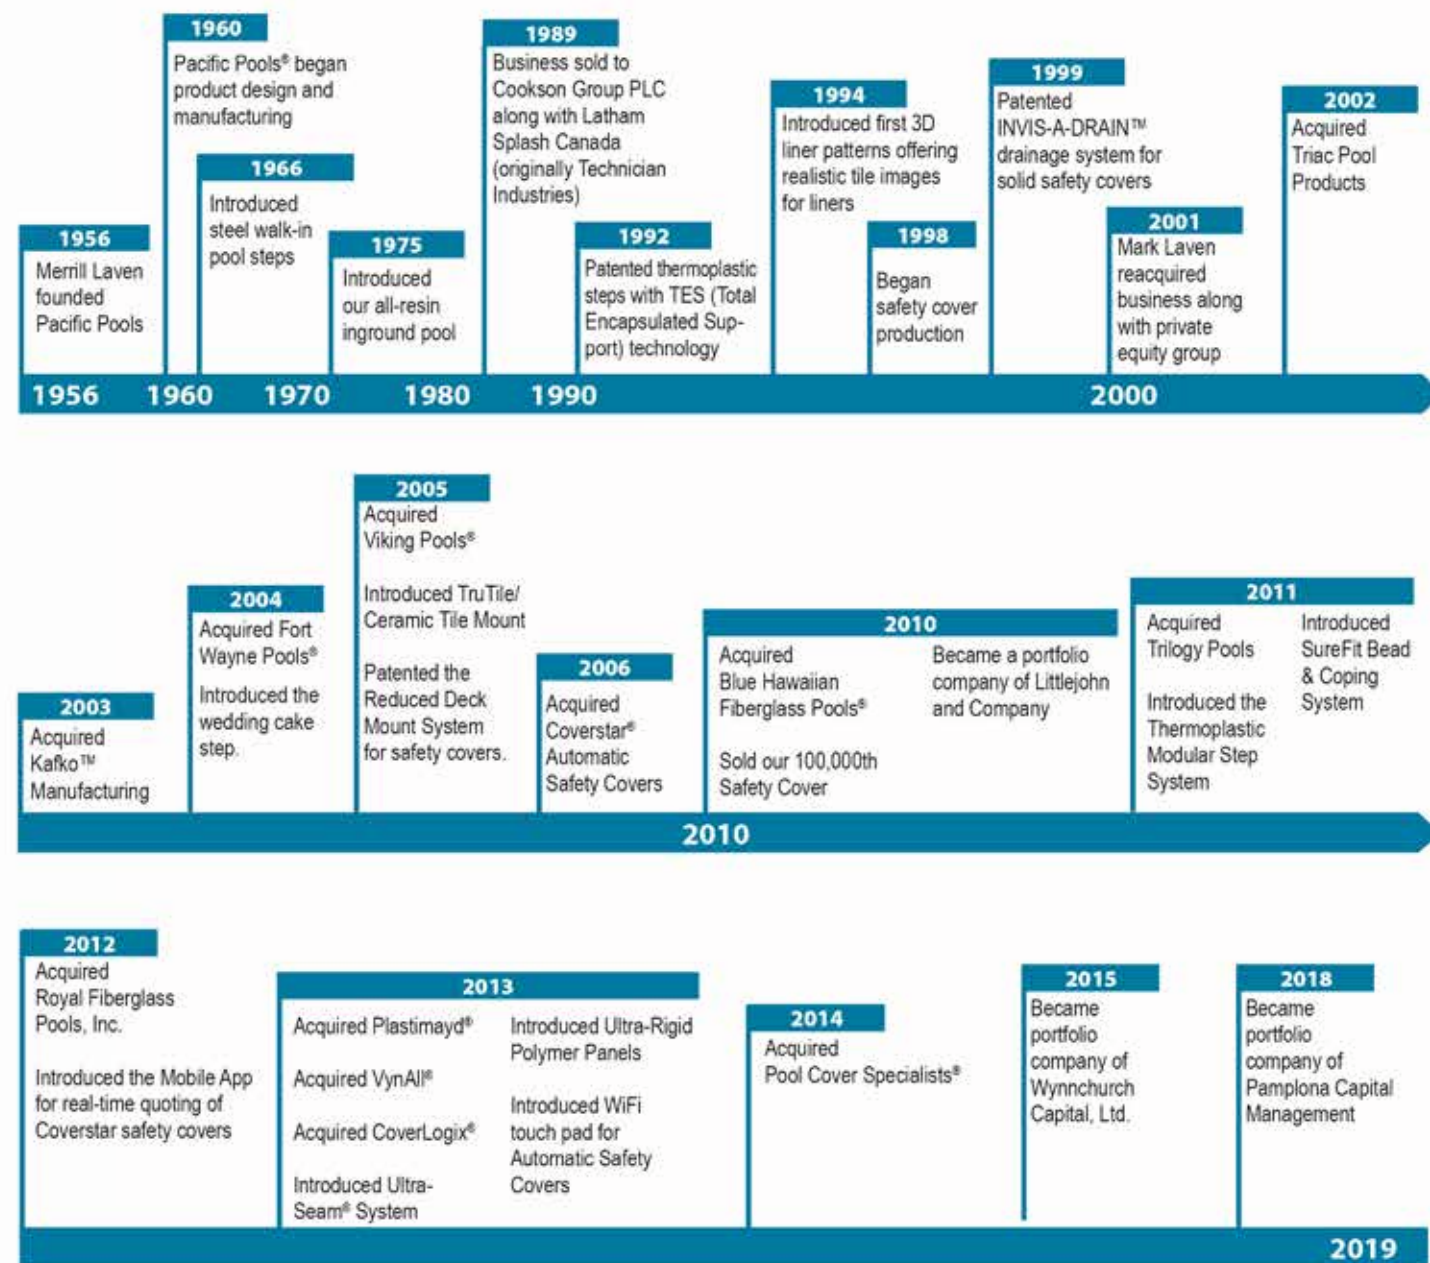

Properly winterizing your pool in conjunction with a Latham safety cover will provide maximum protection against algae growth.

Latham

Our 60 Year History

A timeline of key events in our history:

Be Smart, Play It Safe

Safety Information

IMPORTANT: A number of very important items that are essential for the safe use of your pool may not be visible in many of the photographs, either because of perspective or camera angle, or because they were removed for photographic purposes. These items include, but are not limited to:

1. Safety ropes, which should remain in place at all times;
2. "No Diving" signs, which are provided and should be installed in accordance with instructions included on the coping or liner, where they are clearly visible;
3. An area sign is provided and must be permanently and conspicuously affixed in the pool area where all users can see it;
4. Necessary means of exit and entry into the pool;
5. Fencing with a self-latching gate, and other barriers that can assist in preventing unsupervised access to the pool by children;
6. Approved drain covers and other devices to protect against suction entrapment;
7. Minimum required inlets and returns to ensure proper water circulation;
8. Appropriate in pool lighting if the pool will be used after dark.

All of these devices should be installed in accordance with manufacturer's instructions, ANSI/NSPI or ANSI/PHTA or ANSI/APSP/ICC standards, as well as state and local statutes and codes.

Diving boards and slides require minimum depths and distances and must only be installed and used in strict compliance with the equipment manufacturer's specifications and ANSI/NSPI or ANSI/PHTA or ANSI/APSP/ICC standards. If the pool is labeled by us as NON-DIVING, then diving equipment may not be installed and any such equipment must be removed before the pool is used.

Smart pool owners always think safety first. They take specific steps to ensure that their family, friends and guests are knowledgeable about the safe and sensible use of their pool. They also:

- ensure that their pool is never used unless there is adequate supervision;
- ensure that their pool is kept in good repair and is not used when there is a missing or broken drain cover or other component;
- ensure that ALL CHILDREN using their pool are supervised constantly;

- that anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgment does not use the pool;
- ensure that their pool is protected by appropriate barriers to unsupervised entry including fencing with self latching gates, covers, alarms, etc.

To assist you, a number of very important items of safety literature are included with each pool liner and also available upon request. We must insist that you read each item carefully and follow its instructions. These are:

- Pool Owners Safety Handbook
- PHTA "Sensible Way" Book
- Vinyl Swimming Pool Liner-Warranty
- "Children Aren't Waterproof" Book
- "No Diving" Labels
- Area Sign

Make sure your builder supplies you with all of the safety information that accompanies your pool and that you install the enclosed warning stickers and area sign where they can be clearly visible to all who use the pool.
